Low Iron Glass

Acid Etched Glass

Rain Glass

ShowerGuard uses innovative technology to protect your glass from soap scum, corrosion, and hard water. The surface of the glass is sealed using ion beam technology to fill the pores. This keeps soap scum, etc. out of the pores and protects the glass from stains, which means minimal cleaning is required.

The protective coating is placed on the glass during the manufacturing process securing the sealant's protective properties to preserve your shower glass for years to come.

What makes ShowerGuard different from all other sealants is that it actually becomes part of the glass itself and never needs to be reapplied. ShowerGuard is backed by a limited lifetime warranty.*

Why Choose ABC?

ABC Glass and Mirror is a local, veteran and family owned and operated glass company. ABC offers high quality products at competitive prices, and your satisfaction with the finished project is our top priority.

- The ABC team has many decades of experience in the glass industry. This has allowed ABC to develop installation practices that ensure success: a glass shower that meets your standards for both functionality and visual appeal.
- ABC builds lasting relationships with employees based on mutual respect, which allows us to maintain a staff of veteran installers with low employee turnover. We are able to offer consistency and quality due to our experienced and committed team.
- ABC installers treat your living space with care and utilize drop cloths when working in a bathroom.
- ABC Glass offers competitive pricing while also providing the highest quality products and services. We strive to deliver the best value.
- You may have noticed the level of precision with which we measure a shower area. If surfaces are out of level or walls are out of plumb, your glass will be cut accordingly to accommodate this. These extra steps are taken to ensure the best fit and to minimize gaps between the tile and glass.
- ABC estimators spend time reviewing glass shower options with you to ensure that your custom shower truly meets your expectations.
- ABC shower enclosures and doors carry a 3 year warranty on all parts, hardware, material (excluding vinyl seals which carry a 1 year warranty) and labor.*
- ABC stands behind our products. If a question, concern, or warranty issue should arise with your glass shower, ABC is committed to responding in a timely, professional manner to resolve the issue.

**See abcglassandmirror.com/about/warranty/ for full warranty details.*

What our customers have to say...

William

Very quick to respond. Excellent work. Faster than expected to get materials and install. Great to work with.

Nicholas

The entire process from scheduling the initial appointment through completion of the installation went smoothly. The custom mirror even arrived sooner than expected.

Helen

Exceptional attention to detail in the measurement and manufacturing. It really makes the bathroom seem larger and lighter.

Wanda

These guys are amazing! They have come back to address every one of my concerns about the glass enclosed shower, which is gorgeous. It does not look like it belongs in my house, it's something out of some fancy hotel in magazines!

Christine

Tim and Dave did an excellent job. They were very professional and friendly. They came into my home and installed a custom glass door shower. They were able to explain the installation process and how to maintain the glass afterwards.

Eric

Very Professional team working at ABC Glass & Mirror. I was very pleased with the entire engagement. Started with Ted who came out to do the initial survey. He was very friendly and did not try to do any up selling at all.

Cecilia

Very knowledgeable and professional staff. Mark did a great job installing our shower glass and windows in our master bath. I would highly recommend this company.

Our Mission is to deliver top-ranked levels of professionalism, integrity, and craftsmanship to every client. ABC Glass and Mirror strives to ensure a seamless project process from start to finish by having only the top tradesmen and experts in the glass and mirror industry on staff. It is also our goal to always bring top-rated construction and installation at competitive prices by always looking for ways to better improve our products and services.
